La Mecarm S.r.l. è nata con il preciso intento di produrre frizioni per autoveicoli e veicoli commerciali proponendosi come obiettivo principale il rispetto della Qualità finale e dei materiali utilizzati. Questo è avvenuto dopo 15 anni di studi e ricerche accurate nel campo delle frizioni e grazie al supporto di società collegate che vantano un'esperienza ultra trentennale nel settore della lavorazione della lamiera e nella progettazione e costruzione di stampi e di attrezzature di alta precisione: il presente catalogo è proprio il frutto di questi anni di continuo sviluppo.

L'impiego dei sistemi informatici d'avanguardia CAD-CAM-CAE per la progettazione, per il calcolo strutturale ed a fatica dei componenti, i modernissimi macchinari completamente automatizzati e computerizzati nella produzione dei particolari semilavorati e prodotti finiti, l'utilizzo dei materiali d'attrito non inquinanti e non dannosi per la salute, i due laboratori interni per il controllo dei materiali e dei trattamenti (analisi spettrometriche e metallografiche, prove fisico-meccaniche) e delle frizioni (collaudo completo dei meccanismi spingidisco e dischi condotti) e l'organizzazione del Sistema Qualità aziendale in conformità con le norme ISO 9001 e l'impegno dell'azienda per il rispetto dell'ambiente attestato dalla certificazione di conformità alla norma ISO14001, sono le ragioni del successo dei prodotti MECARM, che rimane sempre fedele alla sua semplice filosofia: "Massima Qualità prodotto = Massima soddisfazione Cliente".

MECARM S.r.l. has been founded with the precise intention to produce clutches for passenger cars & light commercial vehicles having as main target the respect of the final Quality and of the utilized materials. This has become a reality after 15 yers of accurate studies and researching works in the friction field and thanks to the support of associated companies that have a thirty year experience in the working of metal sheets in the designing and production of toolings and other parts of very high precision and the present catalogue is the fruit of all these years of continuous development.

The use off advanced informatic systems CAD-CAM-CAE in the designing and structural and fatigue calculus of the components, the completely automatized and computerized modern machineries for the manufacturing of machined parts and end products, theuse of not-polluting and not-harmful friction materials, the two internal laboratories for the testing of materials and heat treatments (spectrometrical and metallographical analysis, physical-mechanical tests) and for clutch testing (all the cover assembly and driven plate tests) and the organization of the Quality Assurance System in conformity with ISO 9001 standards and the environment in the environmental management system in accordance with ISO 14001 2004 standards are the reasons of the success of the products of MECARM, that remains always faithful to its simple philosophy: "Maximum Quality of the product = Maximum Customers satisfaction".

Nessuna parte di questo catalogo può essere ripodrotta, memorizzata in sistemi di archivio, o trasmessa in qualsiasi forma o mezzo elettronico, meccanico, fotocopia o altri, senza la preventiva autorizzazione scritta della MECARM. La nostra società si riserva di variare in qualsiasi momento, le caratteristiche dei prodotti, illustrati nel presente catalogo.

*No part of this catalog can be reproduced, memorized into file system, nor trasmited in any eletronic, mechanical, photocopy, recording form with out the previous written consent of MECARM.
The Company reserves the right to vary, at any time, the peculiar features of the products showed in this catalogue.*

Informazioni Tecniche

Technical Information

GUIDA AI PROBLEMI DELLA FRIZIONE TROUBLESHOOTING PROBLEMS OF CLUTCH GUIA PROBLEMAS DEL EMBRAGUE – DIAGNOSTICO DE AVERÍAS EMBRAIAGENS – DIAGNÓSTICO DE AVARIAS НЕИСПРАВНОСТИ СЦЕПЛЕНИЯ

Importante - per evitare i problemi illustrati, si consiglia di:

- Verificare con esattezza l'applicazione della vettura come riportata nel ns. catalogo.
- Evitare di montare un kit frizione danneggiato durante il trasporto.

Important note - to avoid to verify the following problems, we suggest of:

- To verify the correct car application as illustrated on our catalogue.
- Avoid to assemble a clutch kit damaged during the transport.

Importante - para evitar los problemas aquí ilustrados se recomienda:

- Verificar con exactitud la aplicación del vehículo conforme lo indicado en el catálogo.
- Evitar montar un kit de embrague golpeado durante el transporte

Importante - para evitar os problemas a seguir indicados, sugerimos:

- Verificar a aplicação correcta conforme indicado nos catálogos.
- Evitar a montagem de um kit de embraíagem que se tenha avariado durante o transporte.

Важное примечание с целью исключения следующих проблем, рекомендуется:

проверить комплектацию автомобиля по нашему каталогу;
не собирать сцепление из набора, поврежденного во время транспортировки.

- 1** Difetto: difficoltà d'inserimento marce
Problem: Difficult to engage gear
Problema: Dificultad para introducir las marchas
Defeito: dificuldade em engrenar as velocidades
Проблема: затрудненное включение передач

Effetto: segni di contatto del disco frizione nel coperchio del meccanismo frizione (vedi foto).

Causa: disassamento tra albero primario del cambio (seminpresa) e l'asse del volante molto probabilmente provocato dal cedimento del cuscinetto del primario del cambio.

Effect: signs of contact of clutch disc in the cover assembly.

Cause: misalignment between main shaft of gear box and drive shaft, probably provoked from the yielding of the bearing of pilot gear main shaft.

Consecuencias: señales del contacto del disco de embrague en el diafragma de la prensa.

Motivos: desalineación entre el eje primario del cambio y eje de la transmisión probablemente provocado por el desgaste del rodamiento del primario del cambio.

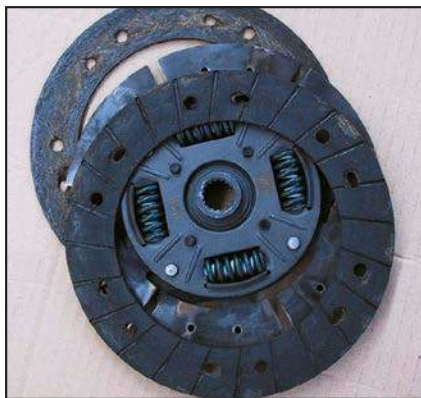

Consequências: sinais de contacto do disco de embraíagem com o diafragma.

Motivo: alinhamento defeituoso entre o veio principal da caixa de velocidades e o veio de transmissão, provavelmente provocado pelo desvio do rolamento do veio primário da caixa de velocidades.

Признаки: физического контакта диска сцепления с корзиной

Причина: несоосность главного вала коробки передач и ведущего вала, вероятно возникшая вследствие проседания подшипника главного вала.

- 2** Difetto: nessuna trasmissione
Problem: no drive
Defeito: veículo sem transmissão
Проблема: отсутствует передача вращения.

Effetto: gli anelli d'attrito sono completamente separati dal disco frizione (vedi foto).

Causa: olio su anelli d'attrito ha provocato il cedimento dell'ancoraggio degli stessi dal disco.

Effect: the friction rings are completely separate from the clutch disc.

Cause: oil on friction rings.

Consecuencias: aro de material de fricción del disco totalmente separado de su soporte.

Motivos: aceite sobre el material de fricción que ha hecho ceder su fijación sobre el soporte.

Consequências: Os anéis de fricção estão completamente separados do disco de embraíagem.

Motivo: óleo nos anéis de fricção.

Признаки: фрикционный диск полностью отделился от диска сцепления.

Причина: наличие масла на фрикционных накладках.

- 3** Difetto: impossibile cambiare marce
Problem: unable to engage gear
Problema: Imposibilidad de cambiar de marcha
Defeito: dificuldade em efectuar as mudanças de velocidades
Проблема: невозможно включить передачу.

Effetto: deformazione elemento elastico tra coperchio e spingidisco in ghisa del meccanismo frizione.

Causa: manovra incorretta o forzatura con utensili sull'elemento elastico durante il montaggio sulla vettura; errato cambio marcia (es dalla 5ª alla 2ª).

Effect: big deformation of drive straps between assembly cover and pressure plate.

Cause: incorrect assembly or handling with tools on the drive straps during assembly on the car; wrong gear change (i.e. from 5th to 2nd).

Consecuencias: deformación de los elementos elásticos existentes entre el diafragma y el plato de presión.

Motivos: elementos elásticos forzados en su montaje sobre el vehículo; Cambio errático de velocidades (reducción de 5ª a 2ª velocidad).

Consequências: grande deformação das patilhas entre o diafragma e o prato de pressão.

Motivo: montagem incorrecta; choque com a ferramenta nas patilhas do diafragma; erro na mudança de velocidade – passagem de 5ª para 2ª.

Признаки: значительная деформация ведущих накладок между корзиной и нажимным диском.

Причина: неверная сборка или некорректная работа с инструментом при сборке; некорректное переключение передачи (например, с пятой на вторую).

- 4 Difetto: difficoltà d'inserimento marce**
Problem: Difficult to engage gear
Problema: Dificultad para introducir las marchas
Defeito: dificuldade em engrenar as mudanças
Проблема: затрудненное включение передачи.

Elemento deformato
 Deformed drive straps
 Elemento elástico deformado
 Patilha deformada
 Деформированные ведущие накладки

Elemento integro
 Undeformed drive straps
 Elemento elástico no deformado
 Patilha não deformada
 Недеформированные ведущие накладки

Effetto: deformazione dell'elemento elastico tra coperchio e spingidisco in ghisa del meccanismo frizione.
Causa: caduta a terra del meccanismo prima del montaggio sulla vettura; errato cambio marcia (es dalla 5ª alla 2ª).
Effect: deformation of drive straps between assembly cover and pressure plate.
Cause: dropping the cover assembly before the assembly on the car; wrong gear change (i.e. from 5th to 2nd).
Consecuencias: deformación de los elementos elásticos existentes entre el diafragma y el plato de presión.
Motivos: queda do mecanismo no chão, antes da montagem; erro na mudança de velocidades – passagem de 5ª para 2ª.
Consequências: Deformação das patilhas entre o diafragma e o prato de pressão.
Motivo: queda do mecanismo no chão, antes da montagem; erro na mudança de velocidades – passagem de 5ª para 2ª.
Признаки: деформация ведущих накладок между корзиной и нажимной пластиной.
Причина: падение корзины при сборке; неверное переключение передач (например, с пятой на вторую).

- 5 Difetto: nessuna trasmissione, vettura bloccata**
Problem: no drive
Problema: Sin transmisión, coche bloqueado
Defeito: veículo sem transmissão
Проблема: отсутствует передача вращения.

Effetto: rottura dell'elemento centrale di acciaio del disco frizione, che risulta completamente separato dal resto del disco.
Causa: coppia del motore superiore alla max del disco (motore sovrapotenziato); durante il montaggio sulla vettura il cambio è stato lasciato sospeso solo al disco.
Effect: the steel central element of the disc is completely separated from damper.
Cause: engine torque is greater than clutch disc torque (engine with increased power); during assembly of clutch on the car, gear box is left suspended only on the disc.
Consecuencias: rotura del elemento central de acero del disco de embrague resultando totalmente separado del resto del disco.
Motivos: el par motor es superior al máximo soportado por el disco (motor sobrepotenciado). Durante el montaje del embrague el cambio se ha dejado suspendido solo sobre el disco de embrague.
Consequências: rotura do elemento central do disco que fica totalmente separado do resto do disco.
Motivo: o binário do motor é maior do que o do disco (motores de alta potência) Durante a montagem da embraiagem a caixa de velocidades é deixada suspensa apenas no disco.
Признаки: центральный стальной элемент диска полностью отделен от демпфера.
Причина: вращательный момент на двигателе значительно больше вращательного момента на диске сцепления (слишком высокая мощность двигателя); во время сборки сцепления на автомобиле коробка передач слева подвешена только на диске.

- 6 Difetto: la frizione slitta o vibra.**
Problem: clutch slipping or shuddering
Problema: El embrague patina o vibra
Defeito: embraiagem patina ou vibra
Проблема: проскальзывание или вибрация муфты сцепления.

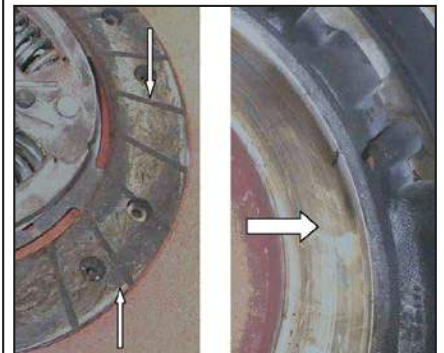

Effetto: grasso o olio sul materiale d'attrito del disco.
Causa: eccesso di grasso lubrificante utilizzato nel montaggio della frizione per lubrificare il mozzo; perdita di olio dal paraolio del primario del cambio.
Effect: grease or oil on the friction material of disc.
Cause: excessive use of grease in the assembly of the clutch kit on the car to lubricate the hub; loss of oil from gear box.
Consecuencias: grasa o aceite sobre el material de fricción del disco.
Motivos: exceso de grasa lubricante utilizada para engrasar el estriado del disco. Pérdida de aceite por el retén del primario del cambio.
Consequências: massa lubrificante ou óleo no prato de fricção.
Motivo: uso excessivo de massa lubrificante para lubrificar o cubo de roda; fuga de óleo da caixa de velocidades. en del primario del cambio.
Признаки: наличие масла или смазки на фрикционной прокладке диска.
Причина: внесение чрезмерного количества смазки во время сборки при смазке шестерен, утечка масла из коробки передач.

- 7 Difetto: la frizione slitta o vibra.**
Problem: clutch slipping or shuddering
Problema: El embrague patina o vibra
Defeito: embraiagem patina ou vibra
Проблема: проскальзывание или вибрация муфты сцепления.

Effetto: grasso o olio all'interno del coperchio e spingidisco del meccanismo frizione.
Causa: eccesso di grasso lubrificante utilizzato nel montaggio della frizione per lubrificare il mozzo; perdita di olio dal paraolio del primario del cambio.
Effect: grease or oil on the pressure plate of cover assembly and on the friction material of disc.
Cause: excessive use of grease in the assembly of the clutch kit on the car to lubricate the hub; loss of oil from gear box.
Consecuencias: grasa o aceite en el interior de la prensa o en el plato de presión.
Motivos: exceso de grasa lubricante utilizada para engrasar el estriado del disco. Pérdida de aceite por el retén del primario del cambio.
Consequências: massa lubrificante ou óleo no prato de pressão da embraiagem e no material de fricção do disco.
Motivo: uso excessivo de massa lubrificante para lubrificar o cubo de roda; fuga de óleo da caixa de velocidades.
Признаки: наличие масла или смазка на корзине и фрикционной прокладке диска.
Причина: внесение чрезмерного количества смазки при сборке на автомобиле при смазке шестерен, утечка масла из коробки передач.

- 8 Difetto: la frizione slitta o vibra.**
Problem: clutch slipping or shuddering
Problema: El embrague patina o vibra
Defeito: embraiagem patina ou vibra
Проблема: проскальзывание или вибрация муфты сцепления.

Effetto: usura anomala e non uniforme del materiale d'attrito del disco.
Causa: eccessiva usura del volante.
Effect: anomalous and uneven wear of the friction material of clutch disc.
Cause: excessive wear of the flywheel.
Consecuencias: Desgaste irregular del material de fricción del disco de embrague.
Motivos: desgaste excesivo del volante motor.
Consequências: desgaste irregular do material de fricção do disco de embraiagem.
Motivo: desgaste excessivo do volante do motor.
Признаки: аномальный или неравномерный износ фрикционной накладки диска сцепления.
Причина: чрезмерный износ муфты.

9

Difetto: la frizione vibra in partenza
Problem: vibration/shudder on pull off
Problema: Arranque con vibraciones
Defeito: arranque com vibrações

Проблема: вибрация/дрожание при выключении передачи.

Effetto: usura anomala e non uniforme del materiale d'attrito del disco con evidenti bruciature in una fascia.

Causa: usura notevole del volante che non ha più la superficie di lavoro piana.

Effect: anomalous and uneven wear of the friction material of clutch disc with obvious burns.

Cause: big wear of flywheel, the working surface is not flat.

Consecuencias: Desgaste irregular del material de fricción del disco de embrague con surcos en una de sus caras.

Motivos: desgaste excesivo del volante motor careciendo de superficie de trabajo plana

Consequências: desgaste irregular do material de fricção do disco de embraiagem, provocando sobreaquecimento.

Motivo: volante empenado e com desgaste excessivo.

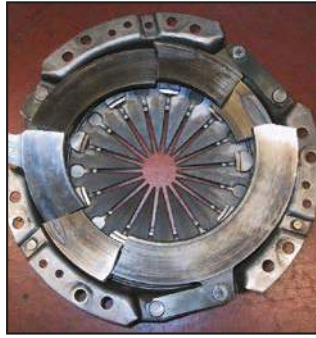

Признаки: аномальный или неравномерный износ фрикционной накладки диска сцепления с явными признаками перегрева.

Причина: значительный износ муфты, рабочая поверхность неровная.

10

Difetto: impossibile cambiare le marce o nessuna trasmissione
Problem: impossible to change gear or to drive the car
Problema: Imposibilidad de cambiar de marchas o sin ninguna transmisión
Defeito: embraiagem presa

Проблема: невозможно включить передачу или управлять автомобилем.

Effetto: rottura in più parti dello spingidisco in ghisa del meccanismo frizione.

Causa: surriscaldamento della frizione dovuto ad un slittamento continuo della frizione o abuso della stessa.

Effect: breaks in parts of the pressure plate on cover assembly.

Cause: overheating of the clutch, provoked from the continuous slipping or abuse of the clutch.

Consecuencias: Rotura de algún componente del plato de presión.

Motivos: sobrecalentamiento debido a un uso excesivo o patinamiento continuo del embrague.

Consequências: prato de pressão partido.

Motivo: sobreaquecimento, devido à utilização excessiva ou ao patinar contínuo da embraiagem.

Признаки: выпадение частей нажимного диска корзины.

Причина: перегрев сцепления, вызванный постоянным проскальзыванием или неправильной эксплуатацией.

11

Difetto: frizione rumorosa nel disinnesto
Problem: noisy clutch in the disengage
Problema: El embrague hace ruido.
Defeito: a embraiagem faz ruido

Проблема: шум при выключении передачи.

Effetto: usura notevole delle punte della molla a diaframma nella zona di contatto con il cuscinetto.

Causa: errata regolazione della corsa del cuscinetto; conduzione di guida errata con il piede sul pedale della frizione oltre il necessario.

Effect: remarkable wear of the fingers of the diaphragm spring in the zone of contact with the release bearing.

Cause: wrong adjustments of the bearing, travelling or driving with the foot on the clutch pedal.

Consecuencias: Desgaste excesivo de las patillas del diafragma en la zona de contacto con el cojinete de embrague.

Motivos: regulación incorrecta del recorrido del cojinete de embrague; Conducción con el pie apoyado en el pedal de embrague.

Consequências: desgaste das pastilhas do diafragma na zona de contacto com o rolamento.

Motivo: Afinação incorrecta do rolamento ou pé apoiado no pedal.

Признаки: значительный износ пальцев диафрагменной пружины в зоне контакта с выжимным подшипником.

Причина: неверная регулировка подшипника, езда с постоянной выжатой педалью сцепления.

12

Difetto: impossibile cambio marce
Problem: impossible engage gear
Problema: Imposibilidad de cambiar de marchas.
Defeito: embraiagem presa
Проблема: невозможно включить передачу.

Effetto: bruciatura sulle punte della molla a diaframma.

Causa: montaggio con cuscinetto reggispinta più piccolo di quello idoneo.

Effect: burns on the tips of the fingers of the diaphragm spring.

Cause: release bearing is smaller than that which is suitable.

Consecuencias: Extremidad de las patillas del diafragma quemadas.

Motivos: Cojinete de embrague más pequeño del adecuado

Consequências: extremidades do diafragma queimadas.

Motivo: rolamento mais pequeno do que o adequado.

Признаки: признаки перегрева на концах пальцев диафрагменной пружины.

Причина: выжимной подшипник меньше требуемого.

13

Difetto: vettura senza trasmissione
Problem: no drive
Problema: Vehículo sin transmisión.
Defeito: viatura sem transmissão
Проблема: нет сцепления.

Effetto: completa usura della dentatura del disco frizione.

Causa: Errata applicazione, il disco è stato montato su una vettura con semipresa differente dalla dentatura mozzo per numero di cave e dimensioni.

Effect: destruction of splines of clutch disc.

Cause: assembly on a car with a different type of splines than that of clutch plate.

Consecuencias: Desgaste importante del estriado del disco de embrague.

Motivos: aplicación incorrecta del disco de embrague, nº de estrias diferente a las aconsejadas.

Consequências: estrias do disco de embraiagem gastas.

Motivo: montagem com um tipo de estrias diferente das aconselhadas.

Признаки: разрушение шлицов диска сцепления.

Причина: шлицы на диске сцепления отличаются от шлицов коробки передач.

14

Difetto: la frizione slitta o vibra
Problem: clutch slipping or shuddering
Problema: El embrague patina o vibra.
Defeito: embraiagem patina ou vibra
Проблема: проскальзывание или вибрация муфты сцепления.

Effetto: la superficie del materiale d'attrito del disco frizione appare bruciata e screpolata, sintomo delle elevate temperature raggiunte.

Causa: surriscaldamento della frizione dovuto ad un slittamento continuo della frizione, abuso della stessa, o per la presenza di olio sul materiale d'attrito.

Effect: surface of disc friction material appears burnt and cracked, symptom of the elevated temperatures.

Cause: overheating caused by continuous clutch slipping, or abuse, or friction material contaminated by oil.

Consecuencias: El material de fricción del disco de embrague aparece sobrecalentado.

Motivos: sobrecalentamiento producido por un uso excesivo del embrague, patinamiento continuo o aceite sobre el material de fricción.

Consequências: Sobreaquecimento do disco de fricção.

Motivo: sobreaquecimento provocado por uso excessivo da embraiagem ou forros impregnados de óleo.

Признаки: поверхность фрикционной накладки диска с признаками перегрева и трещинами, симптомы перегрева.

Причина: перегрев, вызванный постоянным проскальзыванием или неверной эксплуатацией; попадание масла на фрикционную накладку.

- 15** Difetto: la frizione slitta o nessuna trasmissione
 Problem: clutch slips or no drive
 Problema: El embrague patina o sin transmisión.
 Defeito: embraiagem patina sem transmissão
 Проблема: сцепление проскальзывает или не передает вращение

Effetto: il materiale d'attrito del disco frizione è esploso e parte dei frammenti sono rimasti nel meccanismo frizione.
Causa: surriscaldamento della frizione dovuto ad un slittamento continuo della frizione, abuso della stessa, o per la presenza di olio sul materiale d'attrito.

Effect: friction material burnt away and some fragments remained in the clutch cover.

Cause: overheating caused by continuous clutch sliding, or abuse, or friction material contaminated by oil.

Consequências: Material de fricção del disco con restos pertenecientes al plato de presión.

Motivos: sobrecalentamiento producido por un uso excesivo del embrague, patinamiento continuo o aceite sobre el material de fricción.

Consequências: material de fricção queimado com fragmentos no diafragma.

Motivo: sobreaquecimento provocado pelo continuo patinar da embraiagem, utilização excessiva ou material de fricção contaminado por massa lubrificante.

Признаки: фрикционный материал выгорел, и на покрытии сцепления остались его фрагменты.

Причина: перегрев, вызванный продолжительным проскальзыванием сцепления, или неправильная эксплуатация, или фрикционный материал загрязнен маслом.

- 16** Difetto: la frizione è rumorosa e/o vibra
 Problem: noisy clutch or shudder
 Problema: El embrague hace ruido y/o vibra.
 Defeito: embraiagem faz barulho ou vibra.
 Проблема: шум или вибрация муфты сцепления.

Effetto: una o più molle elicoidali del disco frizione sono rotte.
Causa: sovraccarico della vettura, cambio marcia errato, montaggio con motori sovrapotenziali, o su motori diesel.

Effect: one or more springs are broken.

Cause: overloading the car, wrong gear change, assembly on car with high power engine or diesel.

Consequências: Uno o mas muelles del disco de fricción están rotos.
Motivos: sobrecarga del vehículo, error al cambiar de marchas, montaje con motor sobrepotenciado ó sobre un diesel (siendo específico para gasolina).

Consequências: uma ou mais molas estão partidas.

Motivo: carga excessiva; erro na mudança de velocidades, montagem num carro com motor de elevada potência ou a diesel.

Признаки: поломка одной или нескольких демпферных пружин.

Причина: перегрузка автомобиля, неверное переключение передач, слишком велика мощность двигателя или наличие дизельного двигателя.

- 17** Difetto: frizione non funziona
 Problem: no clutch
 Problema: El embrague no funciona.
 Defeito: embraiagem presa
 Проблема: отсутствие сцепления.

Effetto: il disco appare deformato, le flange di contenimento delle molle non sono piane.

Causa: forzato montaggio su applicazione errata o tentativo di montaggio del disco al contrario.

Effect: deformed clutch disc.

Cause: forced assembly on wrong application, or attempt of assembly the disc to the contrary.

Consequências: El disco de embrague aparece deformado, las piezas que cierran la ubicación de los muelles no están planas.

Motivos: Montaje forzado por aplicación incorrecta o intento de montaje del disco al revés.

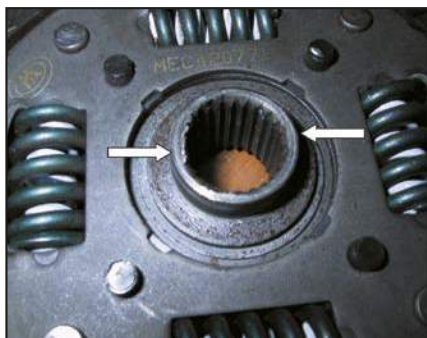

Consequências: deformação do disco de embraiagem.

Motivo: montagem ou aplicação errada ou tentativa de montagem do disco ao contrário.

Признаки: деформация диска сцепления.

Причина: сборка с применением чрезмерных усилий или попытка установки диска наоборот.

- 18** Difetto: frizione rumorosa, slitta, difficile cambio marce
 Problem: noisy clutch, difficulty gear change
 Problema: El embrague hace ruido, patina o dificultad para insertar marchas.
 Defeito: embraiagem faz ruído, dificuldade em engrenar as velocidades
 Проблема: шум при переключении передач, затрудненное включение передачи.

Effetto: il mozzo del disco presenta evidenti segni di contatto.
Causa: disco montato al contrario.

Effect: the hub has obvious signs of contact.

Cause: clutch disc mounted to the contrary i.e. wrong application.

Consequências: El estriado del disco muestra evidentes signos de contactos forzados.

Motivos: Disco montado al revés.

Consequências: cubo de roda esforçado.

Motivo: montagem incorrecta.

Признаки: ступица с явными признаками контакта.

Причина: диск сцепления вставлен наоборот, т.е. неверная сборка.

- 19** Difetto: difficile cambio marce, pedale frizione duro
 Problem: difficulty on engage gear, hard clutch pedal
 Problema: Pedal de embrague duro ó dificultad para insertar marchas.
 Defeito: dificuldades em engrenar velocidades, embraiagem dura
 Проблема: затрудненное включение передач, тугая педаль сцепления.

Effetto: sulla molla a diaframma del meccanismo è presente segno di contatto con cuscinetto più grande del normale.

Causa: montaggio con cuscinetto errato o su errata applicazione.

Effect: on the diaphragm spring of the cover assembly there are visible signs of contact with larger bearing than normal.

Cause: assembly with wrong release bearing or on incorrect car, i.e. wrong application.

Consequências: Sobre las patas del diafragma de la prensa de embrague se muestran señales de contacto del cojinete mas grandes de lo normal.

Motivos: Montaje de cojinete incorrecto o aplicación errónea.

Consequências: sinais evidentes nas patilhas do diafragma de utilização de um rolamento de maior dimensão que o indicado.

Motivo: montagem do rolamento errado.

Признаки: на диафрагменной пружине корзины видны явные признаки контакта с подшипником, большие, чем следует.

Причина: установка несоответствующего выжимного подшипника.

- 20** Difetto: frizione rumorosa, difficile cambio marce, pedale frizione duro
 Problem: noisy clutch, difficulty on gear change, hard clutch pedal, not release.
 Problema: Pedal de embrague duro, dificultad para insertar marchas, embrague ruidoso.
 Defeito: embraiagem faz ruído e presa, dificuldade em engrenar as velocidades
 Проблема: затрудненное включение передач, тугая педаль сцепления, сцепление не выключается.

Effetto: cedimento del cuscinetto reggispinga.

Causa: montaggio del cuscinetto non corretto, forcella del cambio deformata o usurata.

Effect: yielding of release bearing.

Cause: incorrect assembly of release bearing, fork deformed or consumed.

Consequências: Holgura en el cojinete de embrague.

Motivos: Montaje incorrecto del cojinete u horquilla de embrague desgastada o deformada.

Consequências: folga no rolamento.

Motivo: montagem incorrecta do rolamento. Forquilla desgastada ou deformada.

Признаки: проседание выжимного подшипника.

Причина: неверная установка выжимного подшипника, деформация или износ вилки сцепления.

21 Difetto: frizione rumorosa anche senza azionarla
Problem: clutch noisy
Problema: Embrague ruidoso incluso sin accionarla.
Defeito: embraçagem faz ruído
Проблема: шум при Переключении передач.

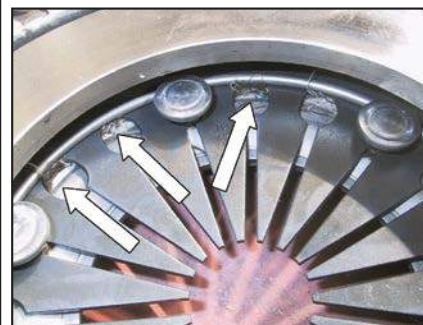

Effetto: segni di contatto sul meccanismo frizione con il cambio.
Causa: montaggio della frizione su un'applicazione non corretta.
Effect: contact signs on the cover with internal surface of gear box housing.
Cause: clutch assembly on the incorrect car, i.e. wrong application.
Consecuencias: Señales de contacto del mecanismo de fricción con la caja de cambios.
Motivos: Aplicación incorrecta del embrague.
Consequências: sinais evidentes do contacto do mecanismo com a superfície interna do apoio da caixa de velocidades.
Motivo: aplicação incorrecta.
Признаки: следы контакта корзины с внутренней поверхностью корпуса коробки передач.
Причина: установка несоответствующих узлов при сборке автомобиля.

22 Difetto: frizione rumorosa, difficile cambio marce
Problem: clutch noisy, drag on gear change
Problema: Embrague ruidoso, dificultad para insertar marchas.
Defeito: embraçagem faz ruído
Проблема: шум в сцеплении и задержки при переключении передач.

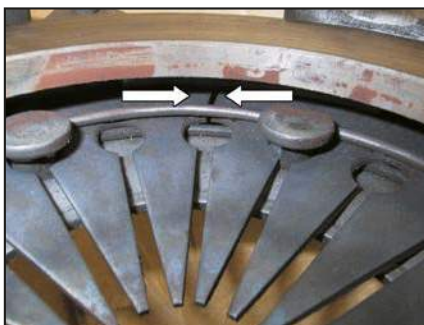

Effetto: materiale d'attrito rovinato sul bordo esterno.
Causa: caduta del disco prima del montaggio sulla vettura.
Effect: friction material damaged.
Cause: dropping the disc before the assembly on the car.
Consecuencias: Material de fricción del disco dañado en su borde externo.
Motivos: Caída al suelo del disco de embrague antes de montarlo sobre el vehículo.
Consequências: material de fricção danificado.
Motivo: o disco caiu ao chão antes de ter sido montado.
Признаки: повреждение фрикционной накладки.
Причина: падение диска при сборке автомобиля.

23 Difetto: difficile cambio marce
Problem: difficulty on gear change
Problema: Dificultad para insertar las marchas.
Defeito: dificuldade nas mudanças de velocidade
Проблема: затрудненное переключение передач.

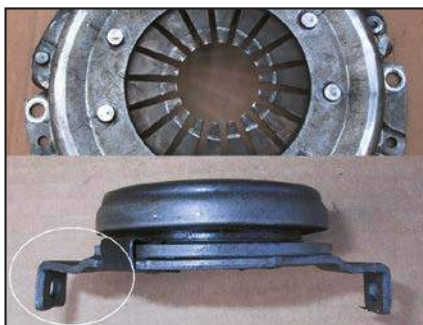

Effetto: materiale estraneo tra la molla a diaframma e il coperchio del meccanismo frizione.
Causa: residui di materiali estranei utilizzati nel montaggio non corretto sulla vettura.
Effect: stranger material between the diaphragm spring and the cover.
Cause: residual of strange material used in assembly of clutch on the car.
Consecuencias: Material extraño entre las patas del diafragma y el cierre del mecanismo de fricción.
Motivos: Residuos de material extraño usados en el montaje incorrecto sobre el vehículo.
Consequências: diafragma com resíduos.
Motivo: resíduos na montagem de material usado na montagem.
Признаки: посторонний материал между диафрагменной пружиной и корзиной.
Причина: остатки постороннего материала при сборке сцепления.

24 Difetto: pedale duro, la frizione slitta
Problem: hard pedal or clutch slips
Problema: Pedal de embrague duro, el embrague patina.
Defeito: embraçagem patina, pedal duro
Проблема: тугая педаль сцепления или проскальзывание сцепления.

Effetto: la molla a diaframma si presenta rotta nella parte piana.
Causa: errata regolazione della corsa del cuscinetto (eccessiva).
Effect: diaphragm spring is broken on the flat zone.
Cause: wrong regulation of release bearing travel (excessive).
Consecuencias: Patillas del embrague rotas en su parte plana.
Motivos: Regulación incorrecta del recorrido del cojinete de embrague (excesivamente largo).
Consequências: patilhas do diafragma partidas.
Motivo: má afinação do curso do rolamento.
Признаки: трещина в плоской части диафрагменной пружины.
Причина: неверная регулировка выжимного хода подшипника (ход слишком велик).

25 Problema: cambio marce difficile, pedale duro
Problem: difficulty on gear change, hard pedal
Problema: Pedal de embrague duro, dificultad para insertar marchas.
Defeito: dificuldade nas mudanças, pedal pesado
Проблема: тугая педаль сцепления, проскальзывание сцепления.

Effetto: deformazione del supporto del cuscinetto frizione, considerevole ed anormale usura delle punte della molla a diaframma.
Causa: errata installazione del cuscinetto frizione, deformazione della forcella del cambio, errata regolazione della corsa del cuscinetto.
Effect: bent support of release bearing, remarkable wear of the fingers of the diaphragm spring.
Cause: incorrect fitment of release bearing, deformation of fork, incorrectly adjusted release travel.
Consecuencias: Deformación del soporte del cojinete de embrague, desgaste considerable y anormal de las puntas de las patas del diafragma de la prensa de embrague.
Motivos: Montaje incorrecto del cojinete, deformación de la horquilla de cambio, regulación incorrecta del recorrido del cojinete de embrague.
Consequências: excessivo desgaste das patilhas do diafragma.
Motivo: montagem incorrecta do rolamento, forquilha desgastada, afinação incorrecta do curso do rolamento.
Признаки: изгиб вилки выжимного подшипника, значительный износ пальцев диафрагменной пружины.
Причина: неверная установка выжимного подшипника, деформация вилки, некорректная регулировка хода выжимного подшипника.

26 Problema: pedale duro, problemi di disinnesto e vibrazioni
Problem: hard pedal or release problem and chatter
Problema: Pedal de embrague duro y vibraciones.
Defeito: pedal pesado ou vibrações
Проблема: тугая педаль сцепления или проблемы с отключением сцепления и дребезжание, вибрация

Effetto: rottura o danneggiamento del cavo frizione.
Cause: Usura del cavo frizione e mancata sostituzione.
Effect: Cracked or damaged cable.
Cause: Wear of cable. It is necessary to replace the cable on vehicle.
Consecuencias: Cable de embrague roto o dañado.
Motivos: Cable de embrague desgastado, necesidad de sustituirlo.
Consequências: cabo danificado ou partido.
Motivo: desgaste do cabo. Necessária a substituição do cabo de embraçagem.
Признаки: трещины или повреждения оболочки троса сцепления.
Причина: износ оболочки троса сцепления, необходима замена.

Catalogo / Catalogue

Nessuna parte di questo può essere riprodotta, memorizzata in sistemi di archivio, o trasmessa in qualsiasi forma o mezzo elettronico, meccanico, fotocopia o altri sistemi, senza la preventiva autorizzazione scritta della MECARM.

La nostra società si riserva di variare in qualsiasi momento, le caratteristiche dei prodotti, illustrati nel presente catalogo.

Le indicazioni delle case costruttrici e i relativi riferimenti riportati nel presente catalogo sono puramente indicativi, i nostri prodotti (dischi, meccanismi, cuscinetti e kit frizioni) sono esclusivamente di nostra produzione e sono perfettamente intercambiabili con i prodotti originali. I tipi ed i codici da noi indicati devono essere rispettati per le loro applicazioni, non si accettano reclami o restituzioni, se non con relazione dell'installatore dove si attesta che quel kit è stato montato sulla vettura da noi indicata.

Le caratteristiche tecniche dei ns. prodotti possono variare in qualsiasi momento allo scopo di apportare migliorie tecniche e di funzionamento.

Si precisa che MECARM S.r.l si declina da qualsiasi responsabilità per errate applicazioni dei codici riportati nel presente catalogo, le stesse derivano da ricerche dati riferite al parco circolante attuale e da nostre successive elaborazioni, quindi eventuali errori sono da attribuirsi a fonti dati ricevute errate.

No part of this catalogue can be reproduced, memorized into a file system, nor transmitted in any electronic, mechanical, photocopying or recording format without MECARM's previous written consent.

Original references which appear on this catalogue are only for reference purpose; our products (driven plate, cover assembly, clutch kit) are exclusively our production and are perfectly interchangeable. All MECARM's references show in our catalogue must be adhered to in respect of their applications, as we will not accept claims or returns without a written report, by the fitter, confirming that the proper kit (driven plate and cover assembly) has been fitted on the vehicle stated by Mecarm.

The technical characteristics of our products can vary at anytime in order to make technical improvements.

MECARM S.r.l declines any responsibilities for any wrong applications of the references stated in this catalogue, as this originates from searches and information obtained via a third party or reported from the actual car parc and therefore possible errors are to be attributed to these sources having given the wrong information. .

Ordini e Consegne / Orders and delivery

Tutti gli ordini vengono regolamentati secondo le condizioni di vendita di MECARM S.r.l., le condizioni base prevedono prezzi di vendita IVA esclusa con resa merce Franco Ns. Stabilimento CASERTA – ITALY, completi di scatole MECARM e imballi.

Ogni richiesta d'ordine deve essere indirizzata al ns. Ufficio Vendite che successivamente provvederà a formulare quotazione o conferma ordine, tutte le consegne ordini sono pattuite e concordate con il ns. Ufficio Vendite previa invio di Conferma Ordine nel caso in cui non siano stati concordati tempi di consegna la MECARM S.r.l. si impegna a considerare come tempo max di consegna 30 gg. lavorativi dalla data ordine, salvo casi di forza maggiore (calamità naturali, scioperi, mancanza su mercato di materie prime).

All orders are processed according to MECARM S.r.l terms and conditions of sale; these conditions are based on prices without VAT, Ex-works delivery and in MECARM boxes. Delivery time is to be agreed with our sales department. The customer can place an enquiry and this will be acknowledged and an estimated despatch date advised. Should the estimated despatch time not be advised, MECARM S.r.l. will endeavour to despatch goods in 30 days from receipt of order, except in the event of circumstances beyond our control.

Spedizioni / Shipment

La merce viaggia a rischio e pericolo del Cliente, anche se venduta franco destino.

Goods are shipped on customer's account and risk, even if goods are sent on a free delivery basis.

Garanzia / Guarantee

La garanzia è limitata alla sola sostituzione di quei pezzi, che resi franco nostro stabilimento siano stati da noi riconosciuti difettosi. La garanzia decade qualora non vengano osservate le norme per un corretto montaggio così come riportate nel ns. Certificato di Garanzia posto all'interno della scatole del prodotto, è importante rispettare i codici e le applicazioni così come da noi riportate nel presente catalogo, non si accettano reclami o restituzioni, se non con relazione dell'installatore o copia del ns. Certificato di Garanzia debitamente compilato, dove si attesta che quel kit è stato montato sulla vettura da noi indicata. Tutti i ns. prodotti sono regolarmente coperti da assicurazione.

Claimed faulty goods will be replaced Free of Charge only when the fault is acknowledged by MECARM and goods are returned free to our factory. The guarantee is null and void when the kit has been fitted incorrectly and not according to our instructions, as stated in our Guarantee Certificate, which is included with the kit.

All references and applications must be adhered to as stated in our catalogue, as we will not accept claims or returns without a written report, by the fitter, confirming that the proper kit (driven plate and cover assembly) has been fitted on the vehicle stated by Mecarm.

All MECARM's products are fully insured.

Reclami / Claims

Eventuali reclami o contestazioni dovranno pervenirci entro e non oltre 15 giorni dal ricevimento della merce. Non si accetta merce di ritorno senza preavviso e senza nostra autorizzazione. In caso di contestazioni è competente il Foro di S. Maria C.V. – CASERTA – ITALIA.

Any claims must be made within 15 days from receipt of goods. No goods will be accepted back without our written confirmation. All disputes are to be settled by the Court of S. Maria C.V., CASERTA, ITALY.

Pagamenti / Payments

I pagamenti riconosciuti sono quelli effettuati presso il nostro indirizzo di Caserta. In caso di ritardo verrà applicato l'interesse commerciale di mora. La merce, che non sia stata pagata integralmente, rimane di nostra proprietà e dovrà essere restituita (art. c.c. 1519) o si provvederà alla sua vendita a spese e per conto del committente (art. c.c. 1515).

Payments must be made only to our address in Caserta (Italy). Interest will be charged, at the current rate, to any late payment. All goods remain our property until fully paid and/or we will provide for their sale and charge the customer accordingly.
